**Subject:** Re: Region 6 Animas/San Juan River Water Sampling data for August 6th

So another question:

For the August 6th data and the August 12th data, do either of the following statements apply (other than the dates):

1) Today, EPA has released additional water quality data from Aug. 7 to Aug. 10, 2015 for the Animas and San Juan Rivers from the Northern Border of New Mexico to Navajo Nation

2 )Today, EPA has released additional water quality data from Aug. 7 to Aug. 11, 2015, on the San Juan River between Farmington and Shiprock, New Mexico

Matt and Kathie:

For the august 6th data set, is there is there an expanded one-line statement we can say about the location of the August 6th data. For example the August 12th data set, the messaging had a first line statement of: "Ten surface water samples were collected at nine (9) locations south of Colorado along the Animas River and the San Juan River of New Mexico on August 12<sup>th</sup>, 2015".

Can we use this same statement but just replace the number of samples and the date?

Terry

**Subject:** Region 6 Animas/San Juan River Water Sampling data for August 6th

Please find attached the data for the two samples taken by R8 for Region 6 on August 6<sup>th</sup>, pre-slug.
